

Alumni Banquet To Feature Talk, Slides on Africa

Dale E. Palmer, student body president of 1939, will discuss "Experiences in Africa" and show colored slides at the Alumni Banquet May 5 in the cafeteria.

In 1949 Palmer had the honor of being appointed by the Imperial Ethiopian Government to a position in the Ministry of Education and Fine Arts, Addis Ababa, Ethiopia. Here he assisted in the development of the first co-educational institution in Ethiopia based on the American plan of education.

His talk promises to be both informative and colorful, for Palmer has also traveled over East and Central Africa, the Middle East, and Europe. Now employed in Industrial Activities at Rocketdyne, he and his wife and their two children, Dalana Sue, 15, and Ken Leroy, 7, live in Neosho.

The faculty will give a reception for the alumni in the College library preceding the banquet. Tickets for the dinner may be obtained from the office for \$2.00.

The Alumni will give special honor to the Class of '39, the first graduating class of Joplin Junior College, recognizing also the Classes of '42, '52, and '62.

Listen

Both on-campus and off-campus listening present opportunities for music lovers this month and next.

Music students will give a formal recital at 8 o'clock Tuesday night, May 1, in the auditorium. Admission is free to anyone wishing to attend.

Pat Ropp, pianist, will present her graduation recital at 3 o'clock Sunday afternoon, May 6, in the auditorium.

Area musicians will present jazz sessions May 8 and 10 in Music Masterpieces class.

Richard Wirthman of "KSYN Concert in FM" has planned a

Government Classes Help With Survey Of Joplin Opinion

State government students under the direction of instructor Kenneth Johnson participated in the Community Development Survey April 10.

The city-wide survey, organized according to precincts for interviewing approximately one household per square block, was conducted by the Public Information Committee of the Chamber of Commerce Industrial Development Committee.

Johnson's students interviewed residents of the fourteenth, fifteenth, and sixteenth precincts asking for opinions as to "likes" and "dislikes" about Joplin and for answers to various other items.

The Public Information Committee designed the survey to enable the Chamber of Commerce to chart the direction its work should take to improve the community.

program of Easter music for Easter Sunday, April 22, and an assortment of spring music for April 29.

April 22 — Rimsky Korsakov's "Russian Easter Overture"

Lalo's "Symphony Expanol"
Prokofiev's "Sinfonia Concertanti"

April 29—Beethoven's "Spring Sonata"

Schumann's "Spring Symphony No. 1"

Stravinsky's "Rite of Spring"

The Wirthman programs are expertly planned and offer delightful listening each Sunday afternoon from 1 o'clock until 3.

Dr. L. E. Malm Will Address Science Classes

Dr. Lloyd E. Malm, National Science Foundation Visiting Scientist, will speak here fifth period Tuesday in the Little Theater.

The assistant director of Chemical Education Materials Study at Harvey Mudd College, Claremont California, will present here a part of two nation-wide experimental programs to improve the teaching of high school chemistry.

Chemistry instructor Harrison Kash, chairman of the Education Committee of the Southeast Kansas American Chemical Society, stated: "Dr. Malm's appearance here is primarily for high school students, but he will also confer with area science teachers in an effort to coordinate chemistry and physics teaching in high school and college."

Kash emphasized that all physics, chemistry, and physical science students are expected to attend.

Prospective Graduates, Have You Checked?

Were you measured for a cap and gown? Did you check the diploma list? If not, see Miss Margaret Mitchell immediately because requests for these items have already been sent in.

Vacation Starts Today

Classes will be dismissed today after eighth hour for Easter vacation. They will reconvene at 8 o'clock Tuesday morning, April 24.

Colleges Cooperate In Testing Program

Area students planning to enter college next fall took tests here last Saturday in a program begun this year to help students plan their college curriculum.

The testing program is the cooperative effort of Joplin Junior College, the University of Missouri, Rolla School of Mines, Southwest Missouri State College, and other Missouri colleges.

Students may have the results sent to any Missouri college they plan to attend and be exempted from taking the tests before enrollment.

Of the 209 students taking the Cooperative Test for Missouri colleges and universities, 10 stated they would like to attend Rolla School of Mines; 37, Southwest Missouri State College; 21, the University of Missouri; and 141, Joplin Junior College.

Registrar to Attend National Convention

Miss Margaret Mitchell, registrar, plans to attend the forty-eighth annual meeting of the American Association of Collegiate Officers April 24-27 in Kansas City. Miss Mitchell is one of twenty-one on the Registration Committee.

Subjects which will be discussed at the convention include: "The Invisible Student," "The Peace Corps and the Colleges," "The Business of Financial Aid," and "Professional Growth: Challenge, and Responsibility."

Eight hundred representatives of 600 colleges and universities are expected to attend.

Easter Assembly To Include Talk, Reading, Music

Reverend Dan Bryson of the First Baptist Church will speak at the annual Easter assembly fourth period today. Adrian Benton will sing and several YWCA members will present a choral reading entitled "The First Easter Morning," by Joan Slaker Knaub.

Those participating in the reading will be Betty Burnham, Carole Brown, Diane Gullette, Brenda Higgins, Dana Hollingsworth, Dianne Hubatka, Cheryl Martin, Judy Pedersen, Judy Phillips, Jane Rucker, Nellie Russell, and Pat Trewyn.

Miss Martha McCormick will serve as accompanist. Jane Rucker and Judy Pedersen are in charge of stage decorations and Nellie Russell is in charge of programs.

Alumni Do Well

Don E. Michael received a fellowship under the National Defense Education Act. Valued at more than \$11,000, the award will finance his studies in physics at the New Mexico State University where he is working toward his master's degree.

Michael E. Banks who will complete his B.S. degree in experimental psychology in June received an assistantship from Duke University to continue his experiment. He has also had an article accepted for publication by the "Journal of Experimental Psychology."

Dr. Charles Wadkins works at Johns Hopkins in Baltimore and teaches part time at the university. Dr. and Mrs. Wadkins (Pat True) visited in Joplin recently.

Joan Petty ranks among six students at K.S.C. who received all A's in the spring and fall of 1961. She also received the Robert Miller Mendenhall Memorial Kappa Mu Epsilon Key mathematics award.

Virginia Monteith won the senior music honor certificate awarded by Sigma Alpha Iota at K.S.C.

Bobbie Graham was chosen ideal secretary during business week at the University of Missouri.

Lt. J. C. Johnson won the district speaking contest of the Toastmaster's Clubs of California. He will compete in the regional contest also.

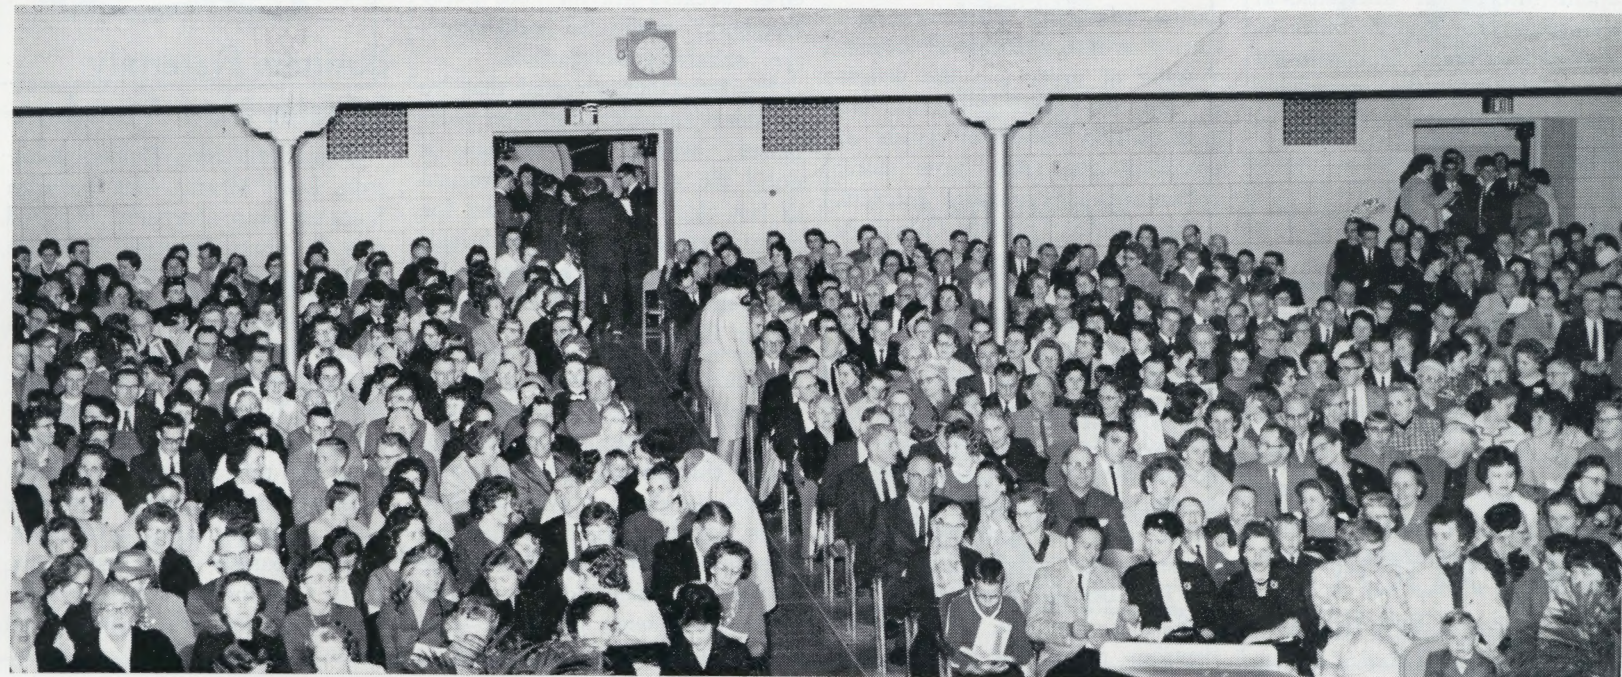

Psychology Students Will Visit Hospital

Dr. E. A. Chandler, chief psychologist at the Eastern State Hospital in Vinita, Oklahoma, has notified Dr. Lloyd Dryer that arrangements have been made for 14 Juco psychology students to visit the hospital June 6-7.

The group will hear members of the psychiatric team discuss their role in the hospital, and they will visit individual wards and sit in on a staff meeting.

All five sophomore psychology majors who studied at the hospital last year are pursuing psychology in four-year colleges.

Capacity Crowd Listens to Choir's 'On to Washington' Concert

Sponsor and Model U.N. Delegates Give Report

(Because of interest in international affairs and the enthusiasm of delegates to the Midwest Model United Nations session in St. Louis, we have asked them and their sponsor to share information.

Tom Conrad, Janice Hall, Dan Hoyt, Bob Newberry, Karl

It is doubtful that more inspired, nor more weary, college students ever returned to their campuses than Joplin Junior College delegates to the first Midwest Model United Nations May 29-31 in St. Louis.

Possibly, the convention's theme had set the pace: "And they shall beat their spears into pruning hooks; nation shall not lift up sword against nation, neither shall they learn war any more." Isaiah 2:4.

Represent Outer Mongolia

Local delegates, representing the Mongolian People's Republic, arranged many voting alignments while registering at the Statler Hilton Hotel. After Dr. Frank Porter Graham's scholarly address concerning human relationships and human rights, delegates got to the serious business of deciding what position they would take on the draft resolutions, which had been distributed earlier and which would come up in their various committees the next morning. Once a position was decided upon, some concern had to be directed toward procedures for amending, defeating, or passing resolutions in committee.

The delegates were very busy all day Friday in the meetings of the Five Main Committees of the General Assembly. Bob attended the Special Political Committee; Tom, the Political and Security Committee; Jim, the Trusteeship Committee; Dan, the Economic and Financial Committee; and Karl, the Social, Humanitarian, and Cultural Committee. Jan and Mrs. Kelly visited each of the committees during the day and found hard-working "Mongolians"—and some strange voting alignments—in all. One of Dan's draft resolutions, which was most annoying to the United States delegation, was finally defeated.

Consider Three Problems

Each committee undertook the consideration of three problems which are or have been agenda items of the present session of the United Nations General Assembly. The Model Committees

Stauffer, Jim Webster, and Mrs. Mary Kirk Kelly, advisor, all said that the M.M.U.N. was so advantageous that it should be continued.

Janice remarked: "It stimulates interest in world affairs and gives students who participate an insight into the attitudes

passed 20 draft resolutions for General Assembly debate. Time would not allow full debate of all the problems, but delegates gained some understanding of such international problems as the effects of atomic radiation, questions of colonialism and of trusteeships, the United Nations Special Fund, representation of the People's Republic of China in the United Nations, Freedom of Information, the question of race conflict in South Africa, and International Trade.

S. K. Roy, Consul General of India, addressed the convention on Thursday evening, briefly reviewing the India-Goa situation and giving some consideration to characteristic attitudes and roles of the world's present powerful nations. At the conclusion of his address, an intensely nationalistic Pakistanian student rather demanded Roy's explanation of the Indian-Pakistanian difficulties, but the Indian Consul diplomatically avoided discussion of that issue which Dr. Graham has investigated for the United Nations.

Later, members of the Midwest Model Security Council considered the international situation and gratefully received President Kennedy's telegram of congratulations and good wishes. There was a moment of tense silence when the President of the Security Council abruptly recessed the meeting upon the fictitious report that a 20-megaton bomb had just been exploded upon the Chinese mainland. Much work remained for delegates after the Security Council's final recess at 11 a.m., for on Saturday morning their major performances in the big arena of the Model General Assembly were to begin.

Dr. George a Highlight

At the delegates' banquet Saturday evening, John R. Boettiger from New York presented a student's view of the United Nations and a historical review of student interest in international organization for peace. Since it is hoped that there be continued student interest in that movement

of nations toward each other, especially toward our own nation."

Jim said: "The M.M.U.N. not only increases one's knowledge of international relations but it teaches tolerance of other people and of other people's opinions. We Americans need to learn this lesson."

at Joplin Junior College, more will be heard on that topic at a later date. However, it is not possible to over-praise the final convention keynote address, "The You in the United Nations," given by Dr. Zelma George.

Any speaker who can hold a young, diverse audience spellbound for over an hour on an evening following three days of hard work with a slim average of three hours sleep per night has to be GOOD. Dr. George was more than equal to the occasion. Her message was a challenge to strive for better human relationships, and it left a sense of urgency—a realization that time is running out. Some excerpts from it may illustrate the impact of her words.

Important Points

Dr. George, a former member of the United States Mission to the United Nations, said:

"The world has reached its most hazardous juncture in history. We are working against a deadline which no past experience teaches us to meet. Traditional strategies and policies no longer offer security and the policies which would do this have yet to be formulated. . .

"The great new frontier today is people, not countries, not even outer space, for, after all is said and done, finally it is people who are important and the ultimate measures of 'Right,' 'the good,' 'the just,' even 'beauty' is whether or not it will make better people and not the other way around. Herein lies the core of the democratic idea. . .

"We cannot ignore the reality that the problem facing the West is complicated by the fact that this more-than-half of the world's population which is self-described as 'unaligned' is also 'Colored'—not 'Negro,' but 'colored.' This distinction of color was given them by the West as a device for discrimination, a mark of degradation, inferiority. They have now turned it into a badge of honor, a bond of unity. . . the people of the unaligned countries are from widely different kinds of environments; they have many differences of national interest, religion, race, politics, ideology and historical background which prevent them from voting as a bloc on international issues. The only things they have in common are anti-colonialism and color. . .

"A major problem facing the United States of America in maintaining its leadership role so necessary for negotiations for the West, is to find quickly some solution to the 'race problem' . . .

"The official position of the U.S.A. is clear and, with few exceptions, right. The lag is in our

College Y.W.C.A. To Honor Mothers At Banquet May 14

The Y.W.C.A. will hold its annual Mother-Daughter Banquet at 6:30, Monday evening, May 14, at the Y.W. Residence, 504 Byers.

Highlights of the program will include a reading from "Please Don't Eat the Daisies" by Connie Sartain and a solo by Dixie Longenecker, with Nancy Newby accompanying her. In addition to honoring mothers of members, the group will install new officers for next year.

Mrs. Kay Francis, chairman of the College Y.W.C.A., will serve as hostess for the dinner.

Tickets for the banquet will be on sale in the cafeteria for \$.75 the week before the event.

Newly-elected officers of the organization include: Jane Rucker, president; Elayne Roby, vice president; Donna Hutchins, secretary; and Janice Hall, treasurer.

Holmes Tells Political Plans

In speaking with the Young Democrats on April 11, Johnny Holmes stated emphatically: "If I am financially able, I will file for Democratic candidate for Congressman from the Seventh District on the deadline of 5 p.m. on April 24." He said that he has delayed filing because of his television job, which, "for the sake of fairness," would have to be given up when he officially becomes a candidate.

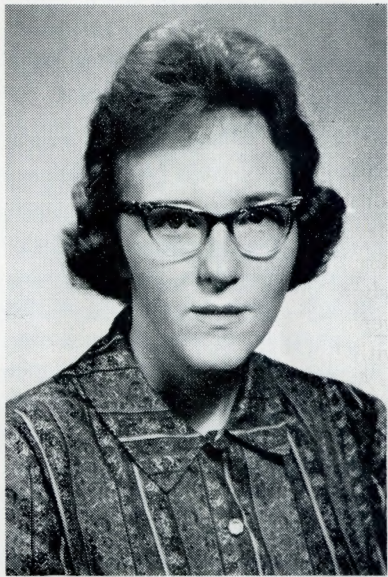

He indicated, however, that he expects the lag between his filing and that of his primary opponent, Democrat Jim Thomas, to be no serious disadvantage. Although Thomas became a candidate one year ago, Holmes is confident of taking the primary because of his "behind the scenes" campaigning. He mentioned talking with several "key Democrats" throughout the district and places much faith in them since "only about five per cent of the people vote in primary elections."

Also, he felt that he had made a wiser selection of campaign managers than had Thomas. His chief backers are all "old party members" while his opponent's are "relatively newcomers."

Finally, Holmes stated that he considers himself a "proven vote-getter," which "Jim Thomas is not." He referred to his record of last election when he ran for county treasurer and, although losing the election, compiled more votes than any other Democrat in Jasper County's history.

behavior which is on an individual, private basis primarily. It is the 'You' that must do something about this in the person-to-person relationships of everyday life. It is highly important that we stop thinking of ourselves as the 'saviors' of mankind but in full partnership with all men—in quest for the good life for all."

Patricia Ropp Will Present Recital May 6

Pat Ropp, piano student of Robert Harris, will present her graduation recital at 3 o'clock Sunday afternoon, May 6, in the College auditorium.

The program follows:

"Sonata Op. 10 No. 3" by Beethoven, "Intermezzo Op. 4" by Schumann, "Capriccio in B Minor" by Brahms, "Prelude Op. 16 No. 1" by Skrajabin, and "The Cat and the Mouse," by Copland.

"Minuetto Allegro" by Gaffi, "Don't Come In Sir, Please!" by Scott, "Into the Night" by Edwards, and "Carmina Waltz" by Welson.

Phi Theta Kappas Will Initiate 21

The initiation of 21 pledges into Eta Chi Chapter of Phi Theta Kappa will take place at 3 o'clock Sunday afternoon, April 29, in the Little Theater. Freshman Mary Jo Cheek from Flat River Junior College will speak on "What Phi Theta Kappa Means to Me."

Dr. Leon C. Billingsly will make the opening remarks and four members who attended the annual convention in Biloxi will review their convention activities.

Parents and friends are invited to attend the initiation and reception following.

Business Fraternity Initiates New Members

Donna Hutchins, Deloros Johnston, Lucy Mosier, and Kathryn Sumpter were formally initiated into Pi Alpha Pi April 4 in the Little Theater.

As a highlight of the program, Miss Vera Steininger, advisor, spoke to members and guests, giving the history of the organization. Newton Vannaman, president of the business fraternity presented new members with rosebuds, ribbons, and certificates. Nellie Russell, vice president; Linda Greathouse, secretary-treasurer, and Jim Trousdale assisted Vannaman.

Joplin Junior College: The First 25 Years and Next

When one has been on a job for 24 or 25 years, he knows the history of the institution he serves. But what are his opinions of that institution and its significance? How does he evaluate his experiences over the years?

Seven Joplin Junior College instructors were asked these questions. Miss Ada Coffey and Miss Martha McCormick have taught here since the College was established 25 years ago when classes were held in the same building with high school. The other five—Arthur Boles, Harry C. Gockel, Mrs. Lillian Spangler, Miss Vera Steininger, and Miss Dorothy Stone—came the second year,

1938, when with a certain sense of achievement the College moved into its own building at Fourth and Byers.

Important Landmarks

The majority agreed that the most important landmark in the history of the College was its approval by the North Central Association of Colleges and Universities in 1948. Most mentioned the passage of junior college legislation last year.

Mrs. Spangler spoke of the "success of Juco graduates in all large colleges," adding that satisfied students encouraging friends and relatives to attend was important to the College's success in early years.

Miss Stone mentioned the expansion of the library, the increased number of courses offered, and the installation of a guidance program. Mr. Boles listed the Choir's trip to Washington, D.C., this week. Miss Steininger said an important landmark was "securing Blaine Hall as a cafeteria and student union."

Miss Coffey listed the admission of GI's to the classroom as posing a challenge to younger students.

Early Problems

In telling the story of the first years, several agreed that educating the community to a junior college posed a serious problem. Miss McCormick described it as "making the Junior College an identity itself separate from the high school," or "the attempt to make a college level institution not just a post-graduate high school."

Other problems mentioned included obtaining financial support

and setting up various departments. Mr. Gockel spoke of fulfilling "the ambitious visions of Dean H. E. Blaine."

Advantages of a Junior College

The instructors pointed out several advantages of a junior college education over that obtained in several other schools of higher education.

Miss Steininger said: "Instructors are generally more experienced than those in many four-year colleges where graduate students teach some freshman and sophomore classes."

Mrs. Spangler said: "The adjustment junior college students make in a senior college is not so great as it would be if they went there from high school."

Miss Stone pointed out that "Instructor-student relationships are more personalized, thereby giving the student a better chance to recognize his capabilities."

J. C. Attracts Teachers

Reasons for wanting to teach in a junior college varied. Miss Steininger said that she wanted to teach in a two-year college "because students in a junior college are there for a purpose and are mature enough, generally, to know the value of an education and will work to get it."

Miss Stone said: "While I was doing graduate work in the university, I recognized junior college teaching as a new undeveloped field of teaching that offered special challenging opportunities."

Miss Coffey said teaching in a junior college appealed to her because of her "interest in knowledge and respect for the mature mind."

Mrs. Spangler remarked: "I believed I would become better acquainted with my colleagues in a junior college and would enjoy working with them." She added that "The congenial atmosphere found at Joplin Junior College has contributed to better and happier living."

Satisfactions in Teaching

Apparently the seven have enjoyed their years at J.J.C. for

their satisfactions are many. Mr. Gockel said: "Having students tell me after 10 years that they appreciated the work is one of the greatest satisfactions."

Miss McCormick said: "The friendship of former students is one of the nicest experiences." Miss Steininger: "There is satisfaction in being able to help students gain skills so that they can make a living."

Mr. Boles: "Having 30 or more art students of the past 24 years teaching or working in the field."

Amusing Events

Not all of the last 25 years have been serious or problem-filled. Miss McCormick recalls that "During the war when there were approximately 80 girls and 10 boys we had a 'harem' party and gave a prize to the boy who brought the largest harem."

Miss Coffey told of an amusing event that happened during a commencement service. "At that time," she said, "the faculty sat on the stage immediately behind the officials and the graduating students occupied the rows of seats immediately in front of the speaker."

"The graduation exercises were conducted with the usual dignity and decorum until the time came for the president of the school board to give the students their diplomas. Then came the hitch!"

"This quite elderly gentleman, because of failing eyesight, could not distinguish the black-gowned faculty members from the blue-gowned students. Consequently, he thrust the diplomas into the hands of the faculty reminding them they were at the crossroads of life and exhorting them to

make the most of every golden second."

Future Improvements

Within the next 25 years the teachers would like to see more scholarships given, entrance standards raised by using a more comprehensive testing program, a larger physical plant with expanded facilities, an expanded placement service, and further development of the Evening Division.

Directors Schedule Plays for May 9-10

The last play of the school year "Fumed Oak" and a stage reading "Human Comedy" will be presented May 9 and 10 in the Little Theater.

Cast members for "Fumed Oak" were announced recently by Leroy Tiberghien, director of the one-act play. They include: Janis Hillhouse as Doris, Jim Garrison as Henry, Diane Gullette as Mrs. Rockett, and Judy Pederson as Elsie.

Nancy Atteberry will direct the stage reading "Human Comedy." She, Sharon Long, and Leroy Tiberghien will participate in the reading.

Julia Miller will give a reading entitled "Parable for Mothers."

'The Chart Review' Will Appear May 3

The annual picture edition of The Chart will be available Friday, May 3. This paper, published primarily for graduating high school seniors and J.J.C. alumni, reviews pictorially representative events of the past year. Nellie Russell will edit the 1961-62 Review.

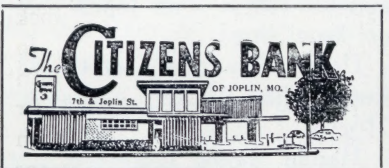

Voters Approve Three Amendments To Student Constitution

Three amendments to the Student Body Constitution passed by an overwhelming majority in school-wide voting April 6. The amendments were proposed by the Student Senate.

The first amendment, Article III, is designed to provide for voting power and mandatory attendance of Freshman and Sophomore class officers at Senate meetings. The amendment passed with 141 votes in favor and 18 against.

Article IV received the most opposition with 129 votes in favor and 39 opposed. This amendment makes provision for election of student body officers in the Spring rather than in the Fall.

Article V, which provides for an absentee ballot, passed with a majority of 145 in favor and 19 opposed.

CARL RICHARD
FOURTH STREET BOWL

4th & Maiden Lane Joplin, Mo.

Joplin Captures Third in K.S.C. Annual Relays

Coffeyville's Red Ravens took five events and went on to win the sixth annual Pittsburg Junior College Relays, April 10, on the K.S.C. cinders. The Kansans chalked up 63 4/5 points.

The delayed meet was almost postponed during the day, but the rain stopped and the officials decided to go on.

Arkansas City, Kansas, took second place honors with 28 points. Joplin Junior College captured only a first place finish by Bobby Jones in the broad jump and finished third. Art Cortez and Jim Courtney aided the Lion cause to round out the point total at 25 2/5.

Other teams and their point totals follow: Kansas State freshmen, 23 1/3; Independence, 22 1/2; Miami, Oklahoma, 21; Fort Scott, Kansas, 11 1/8; Chanute, Kansas, 10; Iola, Kansas, 9, and Parsons, Kansas, 8.

No records were broken, due to the rough weather. Courtney was the Lions' top performer with 10 1/5 points, bagging seconds in both hurdles, a tie for third in the pole vault, and a tie for fifth in the high jump. Cortez was not far behind with 9 1/5 points, scoring a second in the pole vault, a third in the 100-yard dash, a fourth in the low hurdles, and a tie for fifth in the high jump.

Jones' winning leap in the broad jump was 21 feet, 1 3/4 inches. He holds the relay record and recently placed first in the event in the Missouri indoor meet at Columbia. Stegge's cindermen won the state indoor title.

'Mr. and Miss Lucky' Receive Beta Crowns

Jim Golf and Jerry Meese, the thirteenth couple attending the Beta Beta sorority Spring dance last Friday night, were crowned Mr. and Miss Lucky. Lois Ramsey and Pat Gilbreth, sorority officers, made the presentation of crowns to the couple.

Karl Keeler Patty Skaggs Linda Greathouse Mary Hosp

Keeler Enjoys Bus Driving Duty

The scene above is a common site for the friendly bus driver who congratulates Patty Skaggs, Linda Greathouse, and Mary Hosp, members of a top ranking, third hour bowling team.

For about five years now, the tall, gray-haired bus driver named Karl Keeler has driven the girls' physical education classes to bowling alleys, golf courses, and tennis courts and "has enjoyed every minute of it."

"I think the various types of physical education offered by the Junior College are a fine thing and I approve of it very much," Karl says.

A former resident of Anderson, the bus driver has also been employed in the same type of work for about 11 years in Beverly Hills, California, and Chicago, Illinois, before settling in Joplin.

Mr. and Mrs. Keeler have two daughters, Mrs. Jenny L. Stanley and Mrs. Carlene Samensky, both of San Francisco, California.

Phi Theta Kappas Attend National Convention in Biloxi

Four representatives of Eta Chi Chapter heard reports by national officers, adoption of several resolutions, and acceptance of two new chapters at the Phi Theta Kappa convention March 28-31 in Biloxi, Mississippi.

Workshops acquainted delegates with projects of other chapters and introduced them to new methods of keeping chapters active. Entertainment consisted of a harbor trip, seafood jamboree, and dance.

Lisa Crawford, official delegate from the College, served on the convention finance committee. Others attending were Helen Coombs, Larry Martin, and Steve Sandy.

Cindermen Capture First Place In Annual Mo. Juco Indoor Meet

Joplin Junior College thinclads fielded only an eight-man team March 30, but went on to win the Missouri Junior college indoor track meet at the University of Missouri's Brewer fieldhouse.

Dudley Stegge's Lions, with the fine all-around performances of Jim Courtney and Art Cortez, amassed 45 5/6 points to edge heavily favored St. Joseph Junior college. The Griffons took second with 41 points. Wentworth Military Academy was third with 34 1/2 points markers.

Other schools and their totals are as follows: School of the Ozarks, 19 1/3; St. Paul's of Concordia, 18; Kemper Military School, 11 1/3; Southwest Baptist, 10 1/2; Hannibal - LaGrange, 8 3/4; and Flat River, 5 3/4.

Courtney was the meet's individual scoring champion, scoring 15 5/6 points. The Lion star won

the 60-yard high hurdles and the 60-yard low hurdles, finished third in the broad jump, tied for fourth in the high jump, tied for fifth in the pole vault, and ran on Joplin's 880 and mile relay teams. Manley Tubbs, the top star for St. Joseph, finished with 15 points. Cortez was third in individual scoring with 11 1/2 points.

Two records were broken in the indoor meet. Cortez and Gary Holdeman of Southwest Baptist tied at 11 feet, 7 3/4 inches for a new pole vault mark. John Chavez of St. Joseph set a new standard of 2:05.4 in the 880-yard run. Jim Street of Southwest Baptist tied the high jump mark of 6 feet.

Other Joplin winners were Gene Coleman in the shot-put with a toss of 40 feet, 4 inches, and Bobby Jones in the broad jump with a leap of 20 feet, 9 1/4 inches.

Engineering Club Visits Rocketdyne

The Engineers Club and Eldon Offenbacher visited the Rocketdyne plant of North American Aviation April 3 in Neosho.

In two groups, the club members viewed various processes involved in making rocket engines, an unusual glass-enclosed dust-proof room, and eventually a completed rocket engine.

First-stage engines used in the current space exploration flights are built at the plant.

Five Girls Bowl High Scores This Semester

Four second semester bowlers and a first semester bowler have topped the 190 to 209 mark during the first nine weeks of this semester, according to Miss Venus Yount, physical education instructor.

Second semester bowling participants were Sharon Marrison, 209; Carlene Tyler, 202; Karen Whitten, 197; and Bobbie Yeakley, 195. Jackie Roblyer, who is a first semester bowler, has a high score of 190.

KSC Masters Lions 13-2, in Golf Match

Taking revenge of an earlier defeat, Kansas State College of Pittsburg rolled past Joplin Junior College, 13-2, April 4 at Pittsburg, in a golf match on a rain-soaked course.

The victory evened the Gorillas' loss to the Joplinites earlier in the season. Another match is slated between the two teams.

Bill Kayser of Pittsburg was the match medalist, carding a 39-37-76. Oscar Burts and Bill Bierman of Pittsburg and Brad Fagan of Joplin tied for runner-up honors, with 78s.

Results of the individual matches follow, with Joplin players listed first:

Danny Tourtelot, 41-42-83, lost to Jim Walker, 40-40-80. 2 1/2-1 1/2.

Harold Hayes, 39-44-83, lost to Oscar Burts, 41-37-78, 2-1.

Brad Fagan, 38-40-78, lost to Bill Kayser, 39-37-76, 2 1/2-1 1/2.

Janice Kirk, 50-50-100, lost to Bill Bierman, 39-39-78, 3-0.

Mike Dodge, 45-43-88, lost to John Kirtley, 39-44-83, 3-0.
